

I would like to comment on how important the K-LOVE radio station is to me. K-LOVE is one of only two stations that I listen to (the other is news/talk format). The music that they play is uplifting and inspiring. Several other stations that I have listened to sometimes play songs, or the DJs talk about subjects that I do not want my children to hear. I do not have to worry about what my children are listening to on K-LOVE. My children also listen to this station in their rooms when we are not around, and I am encouraged by that. I believe that K-LOVE also provides an opportunity to allow persons to contact them and learn more about the Christian faith. This is a great service to the community. They also encourage Christian values such as donating to your local rescue mission.

I would like to keep getting the K_LOVE signal on my radio. Thank you.
